**U.S. Probation Officer Action:**

The offender was confronted with the positive toxicology report, specifically cocaine. The offender had a prescription for Hydro-codeine which would result in a positive for opiates. The offender denied any relapse, but agreed to return to out-patient treatment. The offender will be attending one group session per week and two individual sessions per month. Should the offender incur another relapse his level of substance abuse treatment will be reassessed and increased accordingly. No action is requested at this time. If continued non-compliance is noted the Court will be notified.
